PROFESSIONAL PROFILE: A versatile tester with 40+ years of IT experience. Proven ability to adapt quickly to new roles and technologies to deliver high-quality results within challenging timescales

TECHNICAL SKILLS

- Operating Systems:** Windows and UNIX.
- Databases:** SQL Server, Oracle, and Google BigQuery.
- Programming & Scripting:** JAVA, C#, PL/SQL, T-SQL, bash scripting, and Groovy.
- Testing Tools:** Selenium, Cucumber, JUnit, TestNG, SOAPUI, Postman, Jira/Zephyr, and Rational Functional Tester (RFT/QTP)

CORE ACHIEVEMENTS & SPECIALISMS

- Automation & Scripting:** Developed full Selenium/Java and Cucumber test suites from scratch, including custom reporting and error logging. Utilised SOAPUI Groovy and bash scripting to automate repetitive tasks and improve test accuracy.
- Data & SQL Expertise:** Authored complex SQL queries and PL/SQL functions to extract test data, calculate clearance dates, and generate board-level reports.
- Modern Technology Integration:** Extensively used **AI** to generate test data, draft test cases, summarise documentation, and create SQL/Jira tickets.
- Specialised Testing:** Experienced in **Security**, **Performance** (Loadrunner), **Globalisation**, and **Disaster Recovery** testing.

PROFESSIONAL EXPERIENCE

- Bet365 | Senior Test Analyst** (2023 – Present)
 - Conducting Functional Verification Testing (FVT) for critical regulatory reports and submissions involving complex calculations.
- Solifi | Senior Test Analyst** (2013 – 2023)
 - Focused on web client FVT and test automation using Selenium, Cucumber, and SOAPUI.
- IBM (Software Group) | System Test Engineer** (2005 – 2013)

- Performed manual and automated functional testing across Windows, web, and command-line interfaces. Coordinated translation and globalisation testing.

- cahoot Internet Bank | Senior Test Analyst** (2000 – 2005)

- Managed disaster recovery solutions, security testing, and performance monitoring for web products.

- Santander (formerly Abbey National) | Senior Analyst Programmer** (1986 – 2000)

- Progressed from Graduate Trainee to Senior Analysts Programmer, designing data models and mortgage rate change suites.

EDUCATION & QUALIFICATIONS

- BSc, Management Sciences** – UMIST, Manchester (1983–1986).

- Qualifications:** Full Driving License.

- Interests:** Retro computing and History.
